

**Easier and Quicker component assembly and field installation –**

**Straight Length Component**

Used horizontally and vertically – array of components available, designed to make a complete installation simple and quick.

**NEW V-Band Component Locking Assembly**

Used to secure adjacent components for a strong secure joint; factory-assembled components with a one-piece assembly facilitates field installation.

**NEW Alignment Sleeve**

Used to provide easier and quicker component assembly in centering adjacent components in the horizontal and vertical orientations and provides a backing for sealant applied to the flange keeping it in the intended location, along with adding strength to the overall joint connection.

**Straight Length Component**

Used horizontally and vertically – array of components available, designed to make a complete installation simple and quick.

(Single-wall Model N Shown)

**FINISHED ASSEMBLY**

Completed installation provides a strong, uniformly aligned pressure stack.
